**BASIC
BRONCHOSCOPY
COURSE
FRIDAY 14TH MARCH 2014**

Programme

Goals and Targets of the course:

The course is aimed at Respiratory Fellows, Registrars, Trainees, ST3/4/5/6 levels & Middle Grade doctors also for CT2/3 planning to do Respiratory Medicine.

Covers all basic safety principles in Bronchoscopy and explains in an easy format all relevant and complex problems while doing Bronchoscopy work for trainees and for starters in Bronchoscopy.

Proposed Programme:

- Learning objectives and introduction
 - Pre-Bronchoscopic evaluation
 - Anaesthesia, analgesia and moderate sedation for Bronchoscopy
 - Bronchoscopy in special populations (+ difficult patient)
 - Prevention and management of complications
 - Lavage, brushings and biopsy
 - Transbronchial lung biopsy
 - Interactive true/false exercises
 - Radiologic evaluation before Bronchoscopy
- Hands on Workshops:
- Bronchoscopy step by step
 - Brushing and conventional TBNA
 - Emergency bronchoscopic intubation
 - Slide preparation & Microscopy session for Doctors by- Histopathologist
